

Marlin Midstream Partners, LP Declares Prorated Third Quarter 2013 Distribution

October 18, 2013 5:19 PM ET

HOUSTON, Oct. 18, 2013 (GLOBE NEWSWIRE) -- **Marlin Midstream Partners, LP** (Nasdaq:FISH), a Delaware limited partnership ("Marlin" or "the Partnership"), announced today that the board of directors of its general partner declared a quarterly cash distribution of \$0.23 per unit to its partners for the third quarter ended September 30, 2013. This distribution represents a prorated amount of Marlin's full minimum quarterly distribution of \$0.35 per unit for each whole quarter or \$1.40 on an annualized basis, based on the number of days between the closing of the Partnership's IPO on July 31, 2013 and the end of the third quarter. The quarterly distribution will be paid on November 4th to unitholders of record as of October 29, 2013.

This release serves as qualified notice to nominees under Treasury Regulation Sections 1.1446-4(b)(4) and (d). Please note that 100% of Marlin's distributions to foreign investors are attributable to income that is effectively connected with a United States trade or business. Accordingly, all of Marlin's distributions to foreign investors are subject to federal income tax withholding at the highest effective tax rate for individuals or corporations, as applicable. Nominees, and not Marlin, are treated as the withholding agents responsible for withholding on the distributions received by them on behalf of foreign investors.

About Marlin

Marlin is a fee-based, growth oriented Delaware limited partnership formed to develop, own, operate and acquire midstream energy assets. Marlin currently provides natural gas gathering, transportation, treating and processing services, NGL transportation services and crude oil transloading services. Headquartered in Houston, Texas, Marlin's assets include two related natural gas processing facilities located in Panola County, Texas, a natural gas processing facility located in Tyler County, Texas, two natural gas gathering systems connected to its Panola County processing facilities, two NGL transportation pipelines that connect its Panola County and Tyler County processing facilities to third party NGL pipelines and two crude oil transloading facilities containing five crude oil transloaders.
